## Staple Ease™

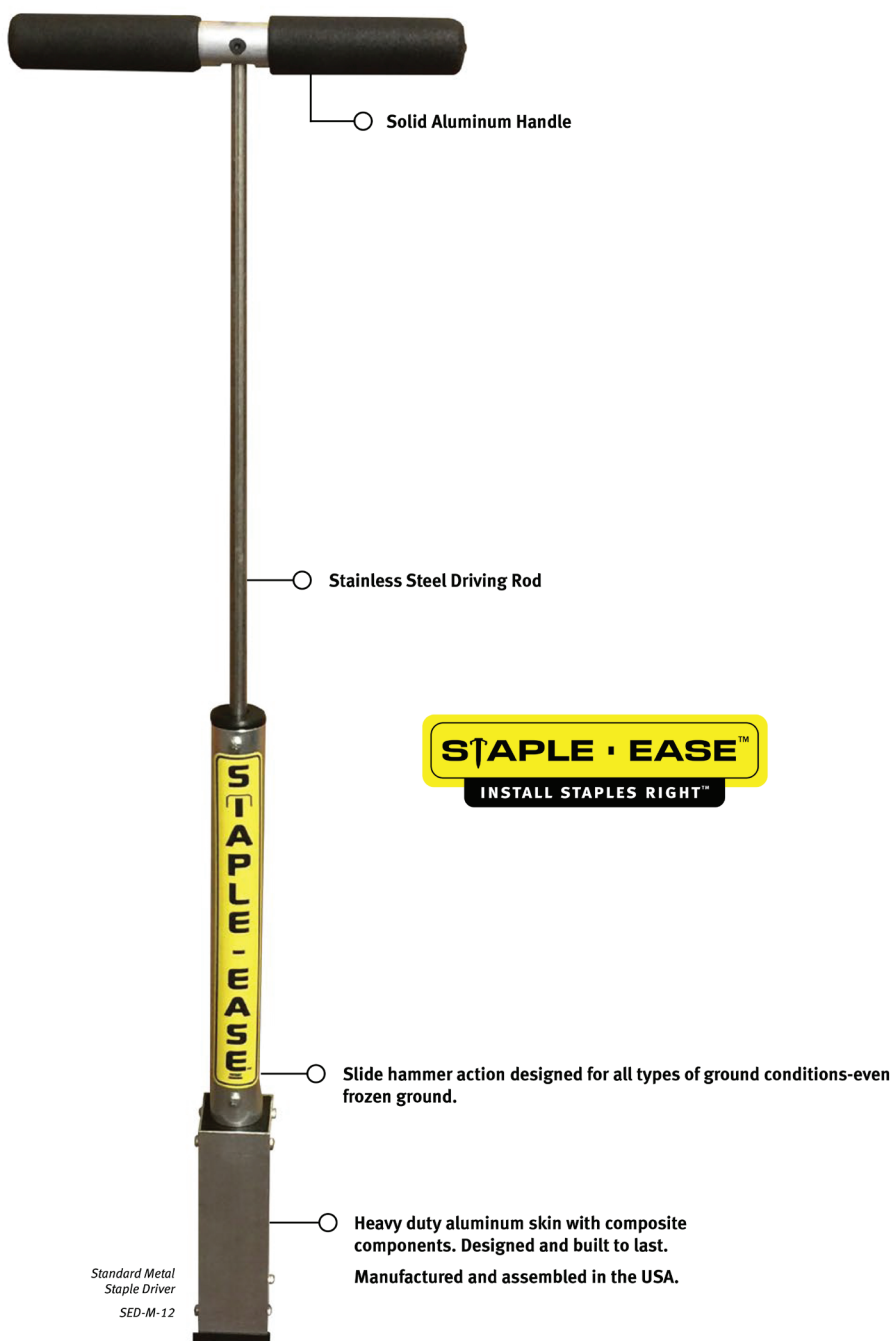

***Faster, Easier  
Installation of  
Staples to Secure  
Lighting Wire, Dripline,  
Landscape Fabric  
and Erosion Control***

Staple Ease™ was created by a landscape contractor with over 30 years in the landscape industry.

Staple Ease™ is dedicated to help contractors do more with less effort. Staple Ease™ has developed drivers for both metal staples as well as Ecoduty biodegradable staples.

With Staple Ease™ interchangeable feet, you can now install low voltage wire or irrigation lines, use on a golf course without leaving a divot behind, or use along a sidewalk or retaining wall.

Try one for yourself and never put staples in with a hammer again.
